

BEHAVIOUR MANAGEMENT PROCEDURES

Inter-relationships

1. Aim

The College motto calls us to value the respect and dignity of each person and to foster a caring, compassionate, welcoming and connected community. Students are expected to be self-disciplined and willing to help other students and teachers to build a positive learning environment. They are encouraged to respect themselves, other people and property and to promote a community spirit of good will. At times young people will make errors of judgement and may not behave appropriately. In such cases students are expected to respond honestly, to accept the consequences of their behaviour, to learn from their mistakes and to move forward optimistically. A behaviour management procedure will provide clarity and guidance to staff, students and parents to ensure a harmonious and effective learning environment.
